Teaching and Learning

The Curriculum

The Internet is an essential resource to support teaching and learning. The statutory curriculum requires pupils to be responsible, competent, confident and creative users of information and communication technology. In delivering the curriculum, teachers need to plan to integrate the use of communications technology such as web-based resources, e-mail and mobile learning. Computer skills are vital to access life-long learning and employment; indeed IT is now seen as an essential life-skill.

- Internet use is a part of the statutory curriculum and a necessary tool for staff and pupils.
- The purpose of Internet use in school is to raise educational standards, to promote pupil achievement, ensure wellbeing, to support the professional work of staff and to enhance the school's management information and business administration systems.

- Improved access to technical support including remote management of networks and automatic system updates;
- Access to learning wherever and whenever convenient.
